

It is vital that you continue to allow the airing of K-LOVE radio stations in their current capacity. K-LOVE is a service to the people of my local community. It has an incredible impact and it would be a dramatic loss for thousands in my community. Many have come to depend on K-LOVE for information, support and entertainment. The value of a national station like this is too vital to risk its demise. K-LOVE truly benefits public interest as it is fundamentally pure in its intentions. It only airs a positive message that encourages an outpouring of decency locally and nationally. They continually encourage listeners to act in ways beneficial to the local community. To lose this station would be a tragic miscarriage of power! Please leave them fully enabled in their current capacity.
